Refer New Passengers, Receive Free Rides

For a limited time, we are running a promotion which allows you to earn even more ride credits for simply referring new passengers in certain markets. Now, when you refer your friends in qualifying markets and they take a ride with Lyft for the first time, you'll receive a referral credit bonus. Spreading the Lyft love has never been more simple, or more lucrative.

Here are the details:

Refer	And Get	Plus
1 friend	\$20 referral credit	-
3 friends	\$40 referral credit	\$25 bonus credits
5 friends	\$100 referral credit	\$50 bonus credits
10 friends	\$200 referral credit	\$100 bonus credits

How do I share my code?

There are a couple of ways to get your code out there. You can invite your friends to Lyft directly through the app by choosing "Free Rides" from the left side menu. From there, you can invite friends from the

contacts on your phone.

New passengers can also enter your unique referral code (also found in the "Free Rides" screen) into the "Payment" section of their app when signing up.

How do my friends and I get credit?

Once a new passenger in a participating market signs up with your link or enters your code, they will see a free ride up to \$20 in the "Payment" screen of their app.

You'll receive your \$20 ride credit once your friend takes their ride, and if you've successfully referred two or more people you'll also receive any additional bonus credits 2-3 days after the promotion has ended — we'll let you know how much you received via email.
